President's Message

I hope this letter finds you in good health and high spirits. I am delighted to inform you that we recently concluded an exhilarating summer program where we had the privilege of learning from experts in the field of smart mobility and Systems Engineering, with a special focus on the City of Austin. The wealth of knowledge shared during this event was truly inspiring, and it underscores the value of our vibrant ITS community.

As we continue to advance in the realm of Intelligent Transportation Systems, we are eager to hear from you. We invite all members to submit abstracts for our upcoming **(CONTINUE READING)**

July 2023 Summer Training Recap

Held on July 27th in Austin, our summer ITS training focused on City of Austin and U.S. DOT systems engineering and was a success with 35 attendees. Kirk Scanlon and Boniface Njoroge kicked off the day with background on the development of the City of Austin's Smart Mobility Division, which explores how the city can use technology to better the lives of its constituents with regard to focus areas such as safety, mobility, air quality, and equity. The Division developed and maintains the Austin Strategic Mobility Plan (ASMP).

Kirk and Boni discussed the city's pilot program, which is essentially a rolling **(CONTINUE READING)**

2023 Call for Abstracts EMERGING AND TRANSFORMATIVE TECHNOLOGIES

We're calling on **YOU** to unleash your innovation.

OUR SPONSORS

ITS Texas is proud to align with a number of influential businesses and organizations interested in helping us promote and enhance public safety and community welfare through research, development, and implementation of advanced technology. The ITS Texas newsletter and website are great forums for advertising your company and products.
